they Protest.

Sen^r: Johannes Huysman now Second in Councell at Pollicat and Sin^r: Dirk Vonk arrived from Palicat with a letter from Sin^r: William Carolus Hartsinck now President there (since the Death of Heer Caulier the late Governour) Congratulating the Agents safe returne, and demanding some Men which had deserted their Service and were aboard of our ships of which they had good Attestations of Persons that see them there, the Contents of the letter being understood Cap^t: North and Cap^t: Earning were sent for and demanded before them whether they had any such men aboard their Ships to which they answereed that possibly such Persons might have been aboard, but they neither paid nor fed any Runaways, however they would send to see if there were any such there now, and having sent, afterward returned answear there was none but such as they brought out of England; the said Strangers were invited to Dinner and treated with Guns and after Dinner desired a letter in answear to that which they brought, which being written and Sealed was delivered, then they asked where the Men were, it was replyed they had heard what answear the Captaines had given, thereupon they tooke out a Paper saying they were ordered by Commission to deliver it, and that it was a Protest for not delivering the Men & desired answear to it, to which the Agent replyed, that 'twas irregular for the President to make a Protest before he knew what answear was made to his demand therefore noe other answear could be given to the Protest untill he signified his dissatisfaction to the answear to his Letter, then they desired to know the Contents of the answear to the Letter, to which the Agent replyed that as they had brought and delivered him a sealed Letter soe he had delivered his answear Sealed, neither did they acquaint him with any the contents of it before hand more then Recomendations but referred him to what was written in the letter, much more discourse passed not materiall to note, this in fine being the Result, upon w^{ch}: they departed and returned to Pollicat this night.

The Letter from Pollicat was written in Dutch, and the answear returned in English.

It is observable how uncivilly and imprudently these Men acted in this procedure, they advised not one word of Protesting in the Letter, and never spake of it in discourse, but just upon parting after they received our answear sealed popt it upon us, altho in the Protest they say they doe it by order of their superiors. It was alsoe offered them to go aboard & call over the Muster Rolls of the Ships but they refused it.

Faria Junr :

[23rd.]—FORT ST. GEORGE, FEBRUARY 16⁷⁸.—

Presents or to send any Persons in the quality of Ambassadors or Agents to their Courts, & we doe enjoy many other great priviledges in these Countrys for the better and more easy carrying on of our Trade and affairs, as that our goods are at noe place denied passage without being opened, examined or in the least hindered, our Ships never looked into nor any question made to impede their departure, and many other such like priviledges as is very well knowne to all People, which we doe enjoy as freely in them parts as in this our owne government, and it was the troubles we Suffered under the government in Pegu which caused us to Relinquish our Trade in that Country heretofore, but now hopeing to obtaine some better encouragement we offer at a new Settlement, and if the King shall thinke fit to concede to what we propose he will certainly find advantage in it, if not we are still friends as we were before ;

The great business will be upon the prizes of the goods that they may be at such moderate rates that we may be able to hold the Trade, alsoe for Saltpetre, for liberty to make it and transport it, if that may be had cheap and we may be free to employ the Natives to make it for us and to Export it in such quantitys as we shall require it will much encourage us for supply of Ballast for our Europe Ships, and for our Kings want of it by reason of the great expence of Powder in his Sea Warrs with his Neighbours. The next thing is how to supply Mony or goods to pay for those goods we shall carry out of the Country, and the last and most needfull to continue our Commerce is Such a freedome & liberty for our ffactorys and Ships as may not discourage our People, for we have forsaken many profitable trades by reason of the inconveniences that attend an over strickt and severe usage, w^{ch}: is altogether needless to the English who are a friendly and true People to what they promise as they have approved themselves at all times, and upon the Acco^{ut}: that they are Soe acceptable to all Princes in those places where they have any trade their priviledges are greater then any other European Nation ; having Represented these things to his Majesty and his Ministers as you shall find fit and convenient, I desire you to give me advice of your Success therein, and of what further you shall find necessary in relation to this affair, and upon receipt thereof you shall receive a definitive answear from me, and soe God keepe you, Dated in ffort S^t: George Madrasspatam the 23th: day of February 16⁷⁹

The Resolves.

1st: That 'tis not against the law of God in holy Scripture nor the lawes of England, and hath frequently been practiced in England for Protestants to Marry with Roman Catholicks.

—FORT ST. GEORGE, MARCH 1680.—

[22th.]

2^d: That the Roman Catholicks of this place being the Offspring of Forraigne Nations Chiefly Portugez and borne out of England are not lyable to the lawes of England provided against Roman Catholicks, they allways owning themselves vassalls to the King of Portugall.

3^d: That tis our Interest to allow of Marryages with them, espetially our Men with their Weomen to prevent Fornication, and in regard there is not English weomen enough for the Men, and y^e: Common Soldyers cannot maintaine English Weomen and Children with their Pay as well as they can the weomen of the Country, who are not soe expensive, and not less modest then our ordinary or common people are, and in matter of Marryages we have alreadly gained by them many hopefull Children brought up in the Protestant Religion.

It is alsoe further to be remembred that these Roman Catholicks of the Portugez Nation were invited hither upon our first settlement, ground given them to build upon, a Church and ffrench Priests allowed to encourage them to come and Inhabit here, they have been Loyall and Serviceable in the defence of the place in time of warr and are a great security to us upon that acco^{ut}: and our greatest income arises from the Customes upon their Commerce.

Poddela Lingapa having written a letter to the Gov^r: desireing a Garse of Wheat against Braminy Accana's comeing from Gulcondah to these parts offering to pay Mony for it, It is thought fit and Resolved to send him a Garse of Wheat and not to demand anything for it.

Some Marchants and Sharoffs of this place and Congee Voram, that is to say Sura Appiah, Ande Chittee and others offering to buy the Comp^{as}: Ryalls of Eight, it is Resolved and agreed with them for Eight Ohests at 15: $\frac{1}{2}$ R^s: for 10 : Pag^{as}: each Ryall to weigh Eight Pag^o: weight, to pay for them in 40 : days time.

There being a spot of high ground by the River side to landward, from the ffort westward upon which formerly S^t: William Langhorn and Councell had by order in Consultation the 1st : October 1675: forbidden any buildings to be Set, but it hath since been much incroached upon by the increase of People building there, it is now thought fit and Resolved to secure the said ground for the Comp^a: by inclosing it with a small brick wall and making a Garden there ; it being the best place to set the ffort upon when the Sea shall come to near where it is ; and to pay the charge of inclosing the said ground, removing the houses upon it &c^a: It is Resolved to sell some part of the Comp^{as}: Garden within the Mallabar or Gentue Towne, Reserving thereof the Walkes upon each side of the burying place and the Choultry ; Soe that by thus disposing of part of the Towne Garden there is a double advantage accruing to the Comp^a: first by increasing of Inhabitants & consequently inriching y^e: place & improving y^e: incomes by securing of goods and accomodating of Marchants within the Towne, and secondly by securing a better peece of ground in every respect for the Company whilst the houses upon it may be taken off with a small Oharge, and yet burying place and Garden enough Reserved within y^e: Towne and the care hereof is left to the Ohief Gunner and to the Expence Ohancopy.
